and seminar materials

Speaker:

Dr. Kristen Hobby is a spiritual director, retreat leader and workshop presenter based in Singapore. She has recently completed her doctoral thesis in the area of children's spirituality.

In today's workshop we will explore the mysterious and mystical world of our nightly dreams. I will share my approach to dreams which is with playful curiosity and possibilities.

Together, we will look at ways to help remember and record our dreams as well as begin to explore the many ways you can begin to seek meaning and understanding from our dreams.

Please bring along a dream you have remembered (even if it is from many years ago).
